A VIEW OF OUR NURSERY BUILDINGS showing Office, Storage Sheds, Propagation Greenhouses, Lath House, Housing facilities for our Nursery labor.

Note in the fore-ground the use of terraces and Green manure crops. All land is rested at least three years between nursery crops.

In addition to Evergreens, we are now growing a fairly complete line of Shade Trees and Flowering Shrubs. All of this stock is heavily branched and bushy, and we are sure our customers will find it most satisfactory.
